

# March for a Match!

Chip Stam, ND Glee Club and Chorale Director ('81-'91), urgently needs a stem cell donor.

## Can you help?

Here's How:

### PLEASE COME GET TESTED

*(It's really easy!)*

We've ordered the cheek swab kits already -- all you have to do is come to the mini-drive (time, date, and location info provided in email), fill out the BeTheMatch registration form, and get your cheek swabbed!

### GIVE A KIT

*Can't join BTM? That's okay.*

Help someone get typed who can't afford a kit. It costs close to \$100 to process a swab -- a donation of \$25-\$100 will help get potential donors registered.

"It was always inspirational to hear the Notre Dame Glee Club under Chip Stam's direction. He reflects everything that is good about Notre Dame.

Finding a stem cell match is critical to saving his life.

I encourage those who have thrilled to the

sound of Chip's music to consider supporting the STAM STEM CELL DRIVE."

—Lou Holtz, Head Football Coach, University of Notre Dame (1986-1996)

### MESSAGE FROM CHIP

Since the spring of 2007 I have been battling an aggressive form of Non-Hodgkin's Lymphoma. The support that has come our way (from family, friends, and strangers) has been a terrific display of God's love and care for us.

We are blessed—and so hopeful for a full recovery. But it has come down to this: **WE MUST FIND A STEM CELL MATCH** for a transplant. This is the best chance to eliminate the Lymphoma from my body.

Thousands of cancer patients, including me, are depending on the willingness of interested friends like you to register with the NMDP's "BE THE MATCH" program.

**Please do it today! Honestly, YOU could save a life.**

Order a swab kit, donate, or learn more at Chip's website:
